

DR SUCHANDA BHATTACHARJEE

GENERAL ACHIEVEMENTS:

I as a neurosurgeon professional has climbed the ladder from assistant professor to professor and head in a government sector teaching hospital which has 6 M.Ch students as intake every year and performs around 3250 surgeries a year. Proficient in doing all types of neurosurgical cases except gamma knife which I have not been exposed to. Paediatric neurosurgery, functional neurosurgery and cerebrovascular surgery is the area of special interest. Regular examiner for M.Ch and DNB Neurosurgery exams in various universities.

CONTRIBUTIONS TO NEUROLOGICAL SOCIETY OF INDIA:

I have been a faculty for NSI Instructional courses many a times. I also conducted the NSI instructional course for both foundational and final years physically. I have been regularly part of the NSI exam online module initiative which started during COVID times and was there till recently. In November we will be hosting the NSI Microvascular Anastomosis Workshop. I have contributed to NSI Annual CME Book as well as newsletter. Presented platform papers in NSI Annual conferences and was invited faculty in NSI.

CONTRIBUTIONS TO NEUROSCIENCES:

Being a neurosurgeon, I have contributed to neuroscience by publishing articles and chapters in journals and text books respectively. Contributed to various educational activities in the national and international forum as a faculty or as workshop instructor. I being in the ISPN membership committee has contributed to the growth of the organization in last 3 years with a record membership growth. In summary, contributing to neurosciences in a consistent way.
